

Machining Services

Thanks to our highly trained staff and our fully equipped machining department at Magneto Electric we can weld, repair, and re-manufacture worn or obsolete parts for all your electrical and mechanical equipment. These parts can be reproduced economically and in a timely manner.

All repairs and re-manufactured parts are done so under the guidance of our audited CSA Z299.3 quality repair program which includes before and after measurements, specifications and in process procedures.

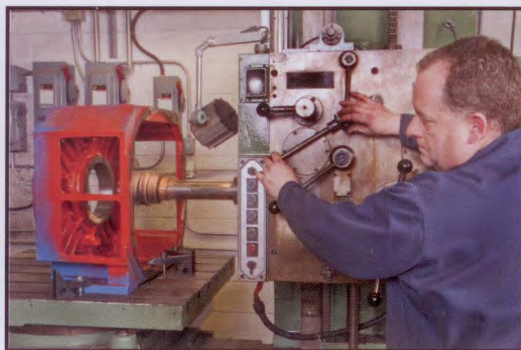

Since 1946 we have served the needs of nearly every industrial market segment, often with unique and innovative solutions. We offer a comprehensive line of machining capabilities such as:

- Horizontal Milling
- Vertical Milling
- Drilling
- Lathe
- Metal Grinding
- Metal Chroming
- Metal Spray
- Rotor Re-barring
- Shaft Manufacturing
- Gear Manufacturing
- Impro Seal Installation
- Insulated Bearing Housings

CSA Certification of Explosion Proof Motors.

Explosion Proof Motors repaired and installed in hazardous locations are required by law to be re-certified by an approved facility. Magneto Electric being an approved facility, is authorized to dismantle, inspect, measure and record all critical flame paths for CSA approval.

- Welding Services:** • Mig • Tig • Gas • Shielded Arc • Wire Feed
• Stainless • Aluminum • Brass • Bronze
• Copper • Steel
